THE FARM.

Now as to the second community.

THE BARLEY QUESTION.

About 1,000,000 bushels of barley are raised in Canada annually, and our representatives in Canada are now negotiating for mailing, and contribute largely to the industry of the country. As a fact, all our barley is exported last about 1,000,000 bushels, and it is not bright barley, our weight and plumpness, as to the quality, that the foreign market, which is almost entirely the market for Canadian barley, is not lost. It is just at this point that our

requesting him, as they could not see any way to increase the salary, to resign. The board of directors promptly declined to do so, and the secretary was authorized to advertise in the *Journal* for a new secretary. A letter from Miss M. J. Henry, of Naples, stating that she had decided to resign, was received. Her position as stenographer was given her at the salary \$212. A resolution was passed to increase the salary of the stenographer to \$250. The resignation of retiring officer, the secretary being appointed treasurer officer. Messrs. That she detected her husband's guilt was plain enough. He had found out the fact of his absence from the ball-room with Sibil Rutledge. He had discovered—how she could not tell—that he had been in the avenue

But she would have ventured in her desperate hopeless wish on a man that he was mistaken, even was not guilty. "Wounds will hardly be healed unless the cause of them is removed," he said. "But Frank Greville himself has no more trouble should be the matter," she rejoined hurriedly.

"Can you tell that, madam?" he asked.

**Western Girls.**  
A young girl, pretty and modest, with a smile on her shoulder is not a stranger to the night life of the city. Her correspondence, from (Los Angeles) to the *New York Times*. Many young women in the far west are as well educated as those of the east, and we can only think it strange to see them equipped on the highway or in the mountains hunting.

It is not the western freedom from conventionalism more striking than the latitude given young women in their dress. The typical far western girl would doubtless be shocked to see the daisy dusters of the east in many things. Here all are considered within the limits of propriety. The cowboy, on his stampede out, rider, and trapper, and hunter, are shown by the sternest sex, and in the low of these accomplishments is shown to the eyes of the east. The western girl of these days is not so much of the east unfamiliar with her partner's kind have often been seriously concerned in finding their charming companions of the night.

But in just such attire, and that nothing whatever is thought of it.

She is a girl of 15, and her education of late is ravaging just now in Miss Lillie Smith, an expert with the rifle, and she is threatened to carry off the honors in marksmanship. She is a girl of 15, and she is the object of contest of skill. She is only 15 years of age, but she appears much older. She has a strong frame, abundant dark brown hair, and a face that is a perfect picture of the picture of health and of typical western beauty. When only 8 years of age she was a hunter, and she has since continued exposure to sun and wind, and she is a perfect picture of health and of typical western beauty. One of her feats with the rifle which has attracted most attention is the breaking in of a glass ball traveling three thousand feet per second. She has also shot a bird forward and also over her shoulder, using the same rifle. She is a good swimmer and a mirror to slaver with.

**LOWERING A BOAT AT SEA.**

Conventive Gonias Makes a Tackle that Insures a Safety for the Crew.

A recent English invention seems to supply the demand for an apparatus to lower a boat from the deck of a ship. It consists of the tackle automatically lowered from the deck, and the boat is lowered in perfect safety to the crew. A vertical cable is secured at the stem and runs down the stern, and the two ends are secured in the bow. The cable is lowered in a winding inboard, where the turns in the bottom of the tackle block are at the bottom of the stem, and the cable is lowered in the bow. The cable is lowered in the bow, and the cable is lowered in the bow, and the cable is lowered in the bow.

to appear by means of two eyes and a nose, and the boat swings at the davits, the block rings have a slant toward the center of the boat.

When you need the boat's crew climbing to the boat, attending themselves by the fore and aft lines. As the boat is lowered a strain is brought on small lines that are attached to the davits. If the boat is to be drawn up, the pins are drawn out, or they may be drawn out by hand. The boat is lowered still further and even to the water. The boat is then hoisted either end without taking the strain off of the opposite tackle the blocks will be disengaged because the weight of the boat is on the other side. At a certain time, but the moment the boat is lifted both ends simultaneously the block rings drop out, and the boat is clear, even though the wave is standing her almost end.

**To Prepare Vegetable Mold Quickly**

As early as the leaves of the tree can

collected, let them be brought in a considerable quantity, into a close place, and covered with a tarpaulin, or a similar material. Let this be well saturated with the manure from the dung heap, with sawdust from the wash house, with urine from the stable, and with any other material, so that the pile can be procured. Let this bed or heap be covered and lined with fresh straw, to make it heat.

Let the pile be covered, and gradually subside, let the leaves be uncovered and turned over, to mix the dry and well together. If moisture be required, let them be watered. Let the pile be turned over, and the process till all be reduced to fine mould. This will be ready for use in two months from the time of collecting the manure.

It is recommended, a layer of maiden soil, of two feet thick, should be made as substratum, which would ensure a quick and easy run to water.

Leaves of slow decomposition should be avoided, as those of the oak, etc., which

beds and p's. The leaves of fir  
also be avoided, but those of the  
spruce, elm, aspen, maple, and all  
the other trees are pure and  
sweet. This compost should be kept dry  
any place, and ridged up, so that  
rain cannot wash it away, and so  
it is abundant (Gardner's Record).

**OUR DISTRACTED CONTRIBUTOR.**—  
were the editors ask a fellow to write  
on one side of the paper, and then  
on the other complain of too much con-  
troversy!

The topics discussed at the recent Eng-  
lish Church congress were of a living and  
interesting nature. The Overseas  
edition of the Poor, "Popular Liter-  
ature with Reference to Infidelity and  
Social Morality," The Bible, and  
The Christian and Public Moral-  
ity. "The Condition of the Toiling  
Classes," "The Rights of Pariahs,"  
and "The Ministry of the Poor."  
The *Freeman's Journal* reported the pro-  
ceedings at great length.

The paper has a slightly textured appearance with some minor discoloration and a dark, irregular stain along the right edge, possibly from the binding or a previous page. There is no text or other markings on the page.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. The right edge of the page is bound into a dark, possibly black, cover. There is no text or other markings on the page.

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some faint smudges and discoloration, characteristic of old paper. The right edge of the page shows the binding of the book, with a dark, possibly black or dark brown, inner cover material visible. The overall lighting is even, highlighting the subtle variations in the paper's tone.

## Grand Fall Opening!

MONDAY, SEPT. 1ST.

CHAS. CRAIG & BRO.

Beg to inform their friends and the public that they have received and are now opening up their Fall stock of TWEEDS and CLOTHS. The very large increase in their ordered Clothing Department last season has induced them to increase their stock and extend their facilities for manufacturing, making this branch of their business second to none in the county. MR. FRED WARD is in charge of the Ordered Department, assisted by a full staff of experienced workmen. Every variety, every new style in the trade, is to be found here, and no suit is allowed to go out unless a perfect fit.

CHAS. CRAIG & BRO.

Stirling News-Argus

Published every Friday morning at the office of publication, Stirling, Ontario. First class postage paid at Stirling, Ontario. JOHN H. THOM, SOV. Subscription Price, \$1.25 per year. Those paying in advance will receive the paper free of charge. Correspondence is invited on all legitimate subjects, and names of contributors will be published in the paper in every case. This rule has no exception.
